Salvador, Bahia - Brazil

Languages: Portuguese (native), English (advanced).

Experience

Avantsoft | 2024 - Present (Software Developer Intern)

- Back-end development with NestJS and similar.

TITAN | 2023 - 2024 (Development Director)

UFBA's Computer Engeneering Junior Enterprise

- Responsible for leading and coordinating projects from the first contact with the client to final delivery;
- Actively participated in all stages of the projects, such as meetings with clients, alignment with design teams, code architecture planning, database modeling, definition of API endpoints and, mainly, front and back end development.

TITAN | 2022 - 2023 (Developer)

UFBA's Computer Engeneering Junior Enterprise

- Front-end and back-end development.

Education

Computer Engeneering - UFBA | 2021 - Present

Scientific Research

Scientific Initiation - UFBA polytechnic school | 2022 - Present

- The research focuses on controlling multiple autonomous drones using approaches based on distributed computing and consensus algorithms. Control of multiple vehicles is carried out through ROS, using C++ and Python, in a simulation and laboratory environment.

Skills

Programming Languages & Frameworks

- Javascript/Typescript
- Python
- Rust
- C / C++
- SQL
- Express.js
- NestJS
- Prisma
- Axum
- Sqlx
- ROS / ROS2
- Next.js
- React

Tools & Platforms

- Git / Github
- Scrum
- AWS
